

ICCF-23

Mitigating the Loss of Irreplaceable LENR Research Records *Initiative Update*

Thomas W. Grimshaw, Ph.D.
LENRGY, LLC
June 2021

ICCF-23

LENR Research Documentation Initiative (LRDI): Objectives

1. Preserve LENR research records while still available
2. Protect information for future analysis with new understanding
3. Recognize contributions of pioneers of new science under trying circumstances

Pilot Project: Edmund Storms' LENR Research

- Los Alamos National Laboratory (retired)
- Preparata Medal, 2005
- Project Components (8 types)
- Interviews (3 sets)
- 8 Research Phases Defined
- Reports: Stage 1, 2, 3, Summary
- Presented as poster at ICCF-21

*Ed Storms at ICCF-18
July 2013*

ICCF-23

LRDI Participants (>20)

Many of Most Prominent in LENR Field

- E Storms
- T Claytor & M Fowler
- SKINR
 - G Hubler
 - A El Boher
 - D Pease
- D Nagel
- D Letts
- M Miles
- G Miley
- F Tanzella
- T Passell
- EarthTech
 - Scott Little
 - Marissa Little
- L Forsley
- P Gluck
- C Beaudette
- S Szpak Book
 - F Gordon
 - P Mosier-Boss
- L Kowalski
- A Lomax
- (J-P Biberian)

ICCF-23

Typical Project Components

- Publications & presentations
- Unpublished reports
- Electronic files: current & legacy media
 - Documents (reports, etc.)
 - Experimental data
- Hardcopy records
- LENR laboratory
- Lab and other notebooks
- LENR books and journals (library)
- Conference proceedings (e.g., ICCF)

SKINR Electronic Files

Nagel Hardcopy Files

Letts LENR Laboratory

Outreach

- ICCF-21 (6/18)
 - Storms Pilot Project
- ICCF-22 (9/19)
 - LRDI Status Report
- ICCF-23 (6/21)
 - Methods, Participants, Status
- MIT CF/LANR (3/19)
 - LRDI Methodology
- Infinite Energy (3/20)
 - Methods, Participants, Status
- Journal of Condensed Matter Nuclear Science (v. 35, 2021)
 - Srinivasan LENR Research Career

ICCF-23

LENRGY_{co}

Future Opportunities

- More detail for current participants
- Additional participants
- More countries (mostly U.S. to date)
- Website development
- Central repository?
- Integrated LRDI report
